SUBJECT INDEX TO VOLUME XVIII

(abs) = Abstract. (E) = Editorial. (B.R.) = Book Review

Abortion, therapeutic, by means of roentgen ray (abs), 493
Abscess, lung (abs), 85
  Lung, from suboccipital disease (abs), 478
  Perimandibular, indications for roentgen therapy of (abs), 174
  Subdiaphragmatic (abs), 94
Absorption of roentgen rays and Compton effect (abs), 398
  Of roentgen rays, laws of (abs), 397
Accessory bones of elbow (abs), 171
Acoustic nerve tumor causing erosion of petrous bone (abs), 284
Acrocephalosyndactylia, a case of (abs), 272
Amebae, effect of roentgen rays on (abs), 498
American Medical Association, Section on Radiology of, report of annual meeting, 62
American Radium Society, report of annual meeting, 58
American Roentgen Ray Society, annual meeting of (E), 362
Amputation stumps, peculiar phenomenon in (abs), 163
Aneurysm, abdominal, 550
  Of thoracic aorta, roentgen picture of (abs), 577
Aneurysms, aortic, differential diagnosis from mediastinal tumors (abs), 277
Angina pectoris (abs), 285
Ankle, fracture of (abs), 476
Antrum of Highmore, malignant tumors of (abs), 288
Appendicitis, chronic, roentgen evidence of (abs), 579; (abs), 581
Applied *X*-Rays, by George L. Clark (B.R.), 150
Arthritis deformans of costo-transverse joint (abs), 382
Ascariasis of digestive tract (abs), 589
Asthma, bronchial, roentgen therapy in (abs), 486
  Bronchial, treatment by diathermy of the spleen (abs), 593
Astragalus, myxochondrosarcoma of (abs), 476
Atelectasis of lungs from stenosis of bronchus (abs), 274
Atlas-axis, torsion luxation of (abs), 274

Bacteria, action of roentgen rays on (abs), 496
Barium plaster for protective walls (abs), 192
  Sulphate, study of commercial opaque preparations containing (abs), 292
Bedside roentgen examinations (abs), 587
Beta rays, biological effect of, in roentgen rays (abs), 185
Biological action of roentgen rays (abs), 400
  Effects of roentgen irradiation, to what are they due? (abs), 497
  Effects of various roentgen-ray qualities (abs), 191
Birth control by roentgen treatment (abs), 488
Bismuth subcarbonate for pneumography (abs), 170
Bladder diverticula, pathogenesis of (abs), 282
  Diverticulum of (abs), 180
  Tumors, irradiation by radon seeds (abs), 179
  Tumors, radium treatment of (abs), 178
Blood-cell production, effect of roentgen irradiation upon, in cancer and leucemia (abs), 172
Blood cells, red, effect of roentgen rays on (abs), 293
  Diseases, roentgen, roentgen therapy of (abs), 297
  Pressure and skin, nervous system, effect of surface radiation upon (abs), 487
  Pressure, effect of roentgen irradiation on (abs), 400
  Special reference to, in therapy and practice of roentgen therapy (abs), 393
  Vessels, functional changes in, after roentgen irradiation (abs), 497
Bone cavities, 26
  Cavities of infectious etiology, 33
  Cavities, osteomyelitic, 34
  Cavities, parasitic, 35
  Cavities, syphilitic, 34
  Cavities, tuberculous, 33
  Changes in congenital syphilis (abs), 90
  Cysts, Pommer and Looser conception of pathogenesis, 28
  Development in diabetic children (abs), 584
  Malformation, an unusual case of (abs), 273
  Marrow, radiotherapy of diseases of (abs), 394
  Metastasis in thyroid tumors, 203
  Metastatic carcinoma from cancer of stomach (abs), 283
  Sarcoma, classification of, 255
  Sarcoma; The Primary Malignant Tumors of Bone and the Giant Cell Tumor (B.R.), 270
  Tumors, preoperative differential diagnosis of (abs), 485
Bones, brittle, and blue sclera; hereditary hypoplasia of the mesenchyme (abs), 166
  Long, primary malignant tumors of (abs), 290
  Supernumerary, of tarsus (abs), 480
  Transplanted. transformation of (abs), 384
Brain tumors, roentgen treatment of (abs), 180
Breast, cancer of, postoperative irradiation of (abs), 171; (abs), 177; (abs), 178
  Carcinoma of, general osseous metastases from (abs), 278
  Carcinoma of, statistics on (abs), 591
Brock's method in treatment of psoriasis (abs), 285
Bronchiectasis, diagnosis by means of contrast material (abs), 585
  Uncomplicated unilateral (abs), 275
Bronchography (see also lipiodol) (abs), 169
  After injection of lipiodol and bismuth subcarbonate (abs), 170
Bronchoscopic lipiodol instillation tubes (abs), 300
Bucky roentgenographic table (abs), 184

Calculus shadows, cholecystography in differentiation of biliary and renal (abs), 483
Caldwell Lecture, 1927, G. W. C. Kaye, 401
Cancer (see also Carcinoma)
  And leukemia, effect of roentgen irradiation on red blood cell production in (abs), 172
  Cases, end results of (abs), 176
  Combined treatment of, with injections of sugar and application of roentgen rays, 365
  Five years of roentgen treatment of (abs), 391
  In man, experimental roentgen (abs), 491
  Of breast, metastasis to pelvis in, 244
  Of breast, postoperative irradiation of (abs), 171; (abs); 177; (abs), 178
  Of cervix complicating pregnancy; harmful effect of radium on fetus (abs), 289
  Of esophagus, combined treatment of, 328
  Of genito-urinary tract, end results in (abs), 180
  Of larynx, is radium a cure for? (abs), 286
  Of penis at Tonkin (abs), 390
  Of stomach and diffuse carcinosis of skeleton (abs), 283
  Of uterine cervix, five-year end results in treatment of (abs), 173
  Of uterus, operability of, after irradiation (abs), 174
Capillaries, studies of effect of roentgen rays upon (abs), 598
Carcinoma (see also Cancer)
  Gastric, 451

Carcinoma of bladder, prostate, penis or testicle, extension of life in (abs), 175
Of breast, osseous metastases from (abs), 278
Of breast, statistics on (abs), 591
Of cervix, factors influencing end results after irradiation of (abs), 287
Of cervix uteri; a clinical and pathological study (abs), 286
Of cervix uteri as treated at University of Pennsylvania Hospital (abs), 285
Of cervix uteri, five-year end results of radium treatment of, 514
Of cervix uteri, measuring device for roentgen irradiation of (abs), 491
Of female pelvic organs, treatment of inoperable (abs), 489
Of larynx and laryngopharynx treated with radium (abs), 287
Of lung, primary, 230, 235
Of skin, question of wave length in roentgen therapy of (abs), 493
Of stomach (abs), 483
Of uterus, roentgen treatment of (abs), 198
Postoperative irradiation of (abs), 183
Cardiac and pulmonary studies based upon synchronized roentgen-ray exposures (abs), 168
Areas of dogs, technique for measuring roentgenograms of (abs), 200
Diagnosis, the x-ray in (abs), 89
Cardioesophageal relaxation (abs), 96
Cardiospasm (abs), 93
Cardiovascular system, effects of irradiation upon, 103
Case, James T., honored by Latin Americans (E), 465
Cassette, curved, for roentgenography (abs), 181
Castration dose, effect of, upon rabbit ovary, 1
Temporary, in inflammatory adnexal diseases (abs), 179
Temporary roentgen (abs), 594
Cataract caused by electric current, 158
Cathode rays, tubes for practical utilization of (abs), 598
Cavity, silent pulmonary (abs), 80
Cell protoplasm, effect of radium on (abs), 500
Cells, neoplastic, radiosensitivity of (abs), 591
Centering device for roentgen tubes (abs), 598
Cerebrum, animal experiments on roentgen irradiation of (abs), 193
Chest, roentgenology in investigation of (abs), 163
Survey, roentgenological, in United States Army, 562
Childs, Samuel B., honored by state society, 369
Cholecystitis, chronic (abs), 168
Cholecystography (abs), 91; (abs), 101; (abs), 386; (abs), 387; (abs), 588
And gastrointestinal study, relative value of, in diagnosis of cholecystitis, 249
And Lyon test (abs), 576
And Lyon-Meltzer test in patient with congenitally absent gall-bladder (abs), 583
And pathologic changes in gall-bladder (abs), 483
And simultaneous examination of gastrointestinal tract (abs), 165
And surgical control (abs), 272
By oral administration of tetraiodophenolphthalein in solution, 557
Failure in two cases (abs), 89
Further experiments with (abs), 579
In differentiation of biliary and renal calculus shadows (abs), 483
In diseases of bile tract (abs), 272
Its clinical significance (abs), 580
Oral method of (abs), 99
Simultaneous, with determination of liver function (abs), 82
Uncoated capsules in, 65
With a silver salt, 366
Cholesterin content of blood, effect of roentgen rays on (abs), 198
Cholesterol, causes of destruction of, *in vitro* by irradiation, 150
Effect of high voltage cathode rays on activation of, in relation to rickets (abs), 184
Clavicles, congenital absence of, 322
Cleidocranial dystosis, hereditary, 322
Cod-liver oil and various other oils, their photoactivity in relation to their antirachitic effect (abs), 187
Coefficient of extinction of roentgen rays in various substances, 356
Colitis as a common disorder (abs), 88
Colon, diverticulitis of (abs), 83
Colpidium colpoda, action of roentgen rays on (abs), 298
Compton effect and absorption of roentgen rays (abs), 398
Converter, triphase (abs), 200
Coolidge, Dr. W. D., presentation of medal to, by College of Radiology, 66
Coolidge tube, energy radiated as x-rays from (abs), 597
Coraco-clavicular joint, bilateral, case report (abs), 383
Coxa plana, pathogenesis of (abs), 576
Cranial cavity and vertebral canal, dangers to be avoided in radiotherapy of tumors of (abs), 591
Craniospinal cavity, dangers to be avoided in roentgen therapy of (abs), 388
Cyst, mediastinal (abs), 81
Cystography as aid to diagnosis in pelvic lesions in female, 546
In diagnosis of genito-urinary tuberculosis (abs), 382
In diagnosis of hypertrophied prostate (abs), 470

Deafness, treatment of lateral pharyngeal bands for (abs), 289
Dermatology, supersoft roentgen rays in, 433
Dermatoses, roentgen therapy of the sympathetic in (abs), 390
Developing time, chart for determining (abs), 295
Diabetic children, bone development in (abs), 584
Diaphragm, congenital absence of left half (abs), 277
Diseases of (abs), 164
Eventration of (abs), 277
Hernia and relaxation of left half of (abs), 278
Hernia of, 133
Temporary relaxation of (abs), 78
Diaphragmatic hernia (abs), 93
Left, non-traumatic (abs), 95
Through esophageal hiatus (abs), 380
Diverticula of bladder, pathogenesis of (abs), 282
Diverticulitis of colon (abs), 83; (abs), 84
Of colon, family (abs), 91
Diverticulum, duodenal (abs), 87
Of the bladder (abs), 180
Of the esophagus, roentgen diagnosis of (abs), 479
Of the stomach simulated by perforated gastric ulcer, 47
Dosage technique, a comparative study of, 346
Dose, relation to variations in line voltage (abs), 191
Roentgen (abs), 292
Stimulant, study of, by means of basal metabolism (abs), 597
Doses, erythema, in roentgen units (abs), 598
Dosimetry in roentgenotherapy (E), 55
Standard, in R units (abs), 193
Duct, common, effect of division of, upon gall-bladder function (abs), 192
Duodenal bucket, a "fluoroscopic" (abs), 490
Diverticulum (abs), 87
Ulcer, comparison of roentgenological and histological findings (abs), 284
Ulcer in a boy (abs), 279

Echinococcus cyst, diagnosis after pneumoperitoneum (abs), 486

Elbow, accessory bones of (abs), 171
Electron, the, inside and outside the roentgen tube (abs), 202
Electroscope, charging device for (abs), 200
Emphysematous blebs, 42
Encephalography (abs), 164; (abs), 590
Endothelial myeloma, 223
Enzymes of serum, increase after light and roentgen irradiations (abs), 186
Epilation in trichophytosis of scalp, new method of (abs), 486
Epiphysitis of hip, late results in (abs), 280
Vertebral, and spinal deformity (abs), 164
Epitheliomas, radium therapy of (abs), 395
Erysipelas, roentgen therapy in (abs), 179
Erythema doses in roentgen units (abs), 598
Erythrocyte formula in roentgen therapy (abs), 396
Sedimentation, effect of roentgen irradiation on velocity of, 520
Erythrocytes, effects of roentgen rays upon (abs), 180
Esophageal cancer, radium implantations in (abs), 596
Esophagus, and larynx, malignancy of, treated by radium emanation (abs), 595
Cancer of, combined treatment for, 328
Displacement of (abs), 475
Diverticulum of (abs), 479
Idiopathic dilatation of (abs), 273
Ethmoiditis, polypoid, radium in (abs), 287
Eustachian tube, roentgenography of (abs), 283
Ewing's tumor, 223; (E), 256
Exophthalmic goiter (abs), 491
Present status of roentgen therapy of (abs), 593
Radium treatment of, 500
Variations in arterial pressure under roentgen treatment (abs), 299
Exposure, relation of kilovolts-peak to time of (abs), 182
Eye, ear, nose and throat, radium in treatment of diseases of (abs), 392
Localization of foreign bodies in, additional safeguard, 378
Roentgen-ray lesions in (abs), 392

Ferrosulphate solution, action of roentgen rays on, 426
Action of roentgen rays on, as a measure of dose, 430
Fetal development uninjured on conception after castration irradiation (abs), 593
Fetus, harmful effects of radium on (abs), 288
Filter, automatic protection against omission of (abs), 197
Safety device, filter selector and time selector (abs), 496
Food, irradiated, effects of upon mice (abs), 293
Studies of effects of roentgen rays upon (abs), 291
Foreign bodies in eye, localization of, 378
Fracture of spine in a tabetic with slowly developing paraplegia (abs), 167
Fractures, diagnosing age of by roentgen appearance (abs), 589
Table for reducing under roentgenoscopic control, 73

Gall-bladder disease (see also cholecystography)
Disease, diagnosis of (abs), 590
Diverticulum of, 159
Mechanism of and relation to cholelithiasis (abs), 500
New developments in knowledge of (abs), 195
Roentgen examination in erect posture (abs), 480
Study of, in response to ingestion of food (abs), 297
Gallstones and gall-bladder, roentgen diagnosis without contrast material (abs), 582
Gastric juice, relation between acidity of and motor function of stomach (abs), 498
Gastritis, gummatous (abs), 588
Gastroenterostomies, roentgen studies of, 180; (abs), 381
Gastrointestinal examination by means of gas and opaque meal (abs), 280
Gastro-jejuno-colic fistula (abs), 586
Genito-urinary carcinoma (bladder, prostate, penis, testicle), extension of life in (abs), 175
Germany, roentgen-ray work in hospitals in (abs), 295
Giant cell tumor of bone (abs), 292
Glands, axillary, in roentgen picture (abs), 166
Glioma of retina cured by radium (abs), 393
Gonorrheal arthritis, roentgen treatment of (abs), 393
Graves' disease (see exophthalmic goiter)
Gynecological conditions, benign, roentgen-ray treatment of (abs), 200
Gynecology, roentgen diagnosis in (abs), 384

Health of radiological workers, 424
Heart action, study of, with the roentgen cinematograph (abs), 182
And aorta, lateral views of (abs), 483
And aorta of child, orthodiagraphy of (abs), 473
Fluoroscopic study of (abs), 167
Human, electrocardiographic and *x*-ray study of (abs), 188
Measurements and constitution (abs), 474
Observation of movement of, from shell fragment in heart (abs), 587
Roentgen diagnosis of congenital lesions of (abs), 473
Heine-Medin's disease, roentgen treatment of (abs), 395
Hemangiomas, radium treatment of, 326
Hemoptysis, in mitral stenosis and pulmonary tuberculosis (abs), 474
Hemorrhage, menopausal, radium in treatment of (abs), 490
Hepatic colic, analysis of pain in (abs), 477
Hernia, ventral, *x*-ray findings in (abs), 86
Hilum, a roentgen-ray phenomenon in the normal and pathologic (abs), 482
Historical development of knowledge of radiant energy (abs), 199
Hodgkin's disease, abdominal manifestations of (abs), 490
Hydronephrosis from kink of ureter (abs), 473
Hydronephrotic double kidney with megalo-ureter (abs), 171
Hyperemia as a secondary ray sensitizer in roentgen irradiation (abs), 200
Hypertrichosis of arms, roentgen irradiation of (abs), 395
Hypophysis, irradiation of, in psoriasis (abs), 395
Roentgen irradiation of, in dysfunction of uterus and ovaries (abs), 390

Ileus, infectious (pseudo-megacolon), 52
Industrial hazard of radioactive material (abs), 194
Infants, bench for roentgenoscopy of (abs), 188
Infection, transphrenic (abs), 482
Injuries to patients and attendants in roentgen practice, their prophylaxis (abs), 296
Injury, roentgen, in spite of standardization in R units (abs), 176
Intensity distribution of roentgen-ray energy (abs), 396
Distribution of roentgen rays in water phantom (abs), 499
International Congress of Radiology, Second, 56, 262
Enrollment in (E), 362, 363
Itineraries to, 367, 570
Intestinal obstruction, roentgen diagnosis of (abs), 582
Intestine, pneumatic rupture of, 560
Intussusception, roentgenological aspect of, 536
Iodized oil (see also Lipiodol)
In diagnosis of nasal conditions (abs), 275

Iodized oil, technique of intratracheal injections of (abs), 281
Value of, in diagnosis of pulmonary infections (abs), 271
Iris diaphragm for roentgen diagnosis (abs), 185
Irradiation, pathology caused by (abs), 181

Joint disease, diagnosis of (abs), 86
Joints, roentgenography of, with iodipin (abs), 587

Karyokinetic index, value of, in controlling radium treatment (abs), 299
Kidney, calculus of, and pyelography (abs), 475
Effects of roentgen rays upon, 334
Horseshoe, pre-operative diagnosis of (abs), 478
Pelves and ureters, reduplication of (abs), 98
Polycystic (abs), 79
Polycystic, roentgen study of (abs), 386
Study of, after denervation (abs), 397
Kienboch's disease of semilunar bone (abs), 101
Kienböck's disease of semilunar bone (abs), 278
Knee joint, congenital dislocation of (abs), 79
Diagnostic inflation of (abs), 80

Larynx, and esophagus, malignancy of, treated by radium emanation (abs), 595
Cancer of (abs), 286
Pharynx, optic canals and paranasal sinuses, roentgen examination of (abs), 383
X-ray injury to (abs), 288
Leucemia, chronic, radium treatment of (abs), 488
Studies on (abs), 180
Leucemias, roentgen treatment of (abs), 173
Lipiodol, and bismuth injections for diagnosis of bronchiectasis (abs), 585
And production of pseudo-abscess of lung (abs), 385
Dangers of introduction into tracheobronchial system (abs), 494
For broncography (abs), 169
For exploration of spinal and cerebral spaces, genito-urinary organs and other cavities (abs), 99
For metrosalpingography (abs), 575
In examination of joints (abs), 587
In localization of spinal lesions (abs), 82
In pneumography (abs), 162
In pulmonary diagnosis (abs), 82
Injection of uterus and oviduct (abs), 281
Injection through cricothyroid membrane (abs), 275
Instillation tubes, bronchoscopic (abs), 300
Local and systemic effects of (abs), 83
Liver, tumor of undetermined origin in, 246
Lung abscess (abs), 85
Abscess, cough as a factor in chronicity of (abs), 200
Abscess, false, and lipiodol (abs), 385
Abscess from suboccipital disease (abs), 478
Abscess, postoperative (abs), 299
Abscess, use of opaque substances to localize (abs), 386
Massive collapse of (abs), 169
Primary carcinoma of, 230
Primary tumors of, 235
Roentgenogram, the solitary circumscribed rounded shadow in (abs), 168
Sagittal inclined positions in study of hilum of (abs), 578
Tuberculosis of (abs), 481
Lungs, and pleura, roentgenology in diagnosis of diseases of (abs), 575
Atelectasis of, from stenosis of bronchus (abs), 274
Effects of silica dust upon (abs), 97
Lupus vulgaris, Finsen treatment of (abs), 172
Lymphoblastoma, retroperitoneal, simulating kidney neoplasm (abs), 169
Lymphosarcoma of nasopharynx treated with radium and *x*-rays (abs), 171

Madelung's deformity, familial (abs), 280
Malignant disease, importance of vascular permeability in roentgen and radium treatment of, 337
Malpractice insurance question (abs), 296
Mammary cancer, metastasis to pelvis in, 244
Massive collapse of the lung (abs), 169
Mastoids, new position for roentgenograms of (abs), 484
Measurement of depth doses, device for (abs), 188
Of dosage by Siemen's dosimeter and Sabouraud pastilles (abs), 184
Of gamma radiation (abs), 199
Of roentgen rays by ionization method (abs), 195
Of secondary and scattered radiation (abs), 186
Of stray radiation, 146, 149
Measurements with iontoquantimeter, etc. (abs), 193
Measuring and adjusting device for roentgen irradiation of carcinoma of cervix uteri (abs), 491
Mediastinal cyst (abs), 81
Tumors, roentgen treatment of (abs), 491
Mediastinum, hernias of, during artificial pneumothorax (abs), 279
Medicine, who shall practice it? (E), 464
Medicolegal aspects of practice of roentgenology (E), 566
Megacolon, congenital, roentgen study of (abs), 282
Mesenchyme, hereditary hypoplasia of; brittle bones and blue sclera (abs), 166
Mesenterium commune, a case of (abs), 580
Metrosalpingography for study of anatomy of uterus and tubes (abs), 585; (abs), 588
Importance of (abs), 575
Mikulicz's disease, roentgen treatment of (abs), 597
Milliammeter reading, method of controlling during roentgen treatment (abs), 298
Montreal meeting (E), 153, 154
Myeloma, endothelial (Ewing's tumor), 223
Myositis ossificans accompanying spondylitis deformans (abs), 87
Myxochondrosarcoma of astragalus (abs), 476

Nasal tumors, intranasal radium therapy in benign and malignant (abs), 289
Nephritis, experimental, produced by irradiation (abs), 196
Interstitial, rickets occurring in, 442
Roentgen-ray, functional studies in course of (abs), 196
Nephroses and nephritides, roentgen therapy of (abs), 492
Nephrotomy (abs), 490
Nervous system, autonomic, roentgen rays and, 137
New England Roentgen Ray Society, annual meeting of, 469
Normal Chest of the Adult and the Child, by J. A. Myers (B.R.), 270

Oestrus cycle, on occurrence of, after roentgen sterilization (abs), 293
Olecranon, spur on (abs), 165
Opaque foreign bodies, table for bronchoscopic removal of, 73
Ophthalmology, radium in (abs), 489
Roentgen treatment in, 367
Optic canals, roentgen examination of (abs), 383; (abs), 384
Organism, human, general effect of roentgen rays upon (abs), 198
Organisms, unicellular, effects of roentgen rays on (abs), 497
Ossification centers, *x*-ray study of (abs), 78

Ossification of patellae (abs), 98
Osteitis, and periostitis, typhoid (abs), 89
Fibrosa cystica associated with diabetes insipidus (abs), 87
Fibrosa cystica of hip (abs), 167
Fibrosa, general and local (abs), 384
Tuberculous, anatomical cure of (abs), 383
Osteochondritis of the hip (Legg-Perthes' disease) (abs), 576
Osteogenesis imperfecta, a case of (abs), 165
Osteomyelitis, pathogenesis of end results of (abs), 101
Otosclerosis, is there an endocrine factor in (abs), 492
X-ray therapy in (abs), 493
Ovaries, roentgen-ray stimulating doses; permanent and temporary sterilization (abs), 173
Ovary of mouse, changes in due to irradiation (abs), 201
Rabbit, effect of castration dose upon, 1

Palpation, dangerous art of (abs), 575
Patellae, ossification of (abs), 98
Pelvis, lateral roentgenography of (abs), 580
Penis, cancer of (abs), 390
Periosteal elevation, unusual forms of (abs), 88
Periscope tube for delimiting fields for irradiation (abs), 201
Perthes' disease (abs), 102
Petrous bone, disease of, causing symptom-complex of the angle of the pons cerebelli (abs), 167
Erosion of, by acoustic nerve tumor (abs), 284
Pharyngeal bands, treatment of, for deafness (abs), 289
Pharynx, and larynx, roentgen examination of (abs), 383
Philadelphia clinical meeting of radiologists, notice of, 369
Photographic marking of roentgen negatives (abs), 183
Photometer, the roentgen (abs), 190
Physostigmine as an aid in gastrointestinal roentgen-ray diagnosis, 301
Phytobezoar (abs), 95
Pineal body, calcification of (abs), 577
Pirie, A. Howard, portrait opposite p. 54
Plasters, protective, 419
X-ray protective (abs), 298
Pleura, roentgen study of (abs), 475
Pleural cavity, distribution of fluid in (abs), 478
Effusions, roentgen diagnosis of (abs), 586
Induration, calcified (abs), 162
Pleurocele, false traumatic (abs), 583
Pneumoconiosis (see silicosis)
Pneumography (see also Broncography and Lipiodol)
With iodized oil (abs), 162
Pneumonia, tuberculous, peculiar course of (abs), 271
Pneumopericardium from radium necrosis (abs), 86
Pneumoperitoneum, 272
In gynecology (abs), 99
Pneumothorax, artificial, hernias of diaphragm during course of (abs), 279
Poliomyelitis, acute anterior, modern treatment with roentgen therapy, diathermy and electrotherapy, (abs), 389
Acute anterior, roentgen treatment of (abs), 388
Late results of roentgen treatment of paralysis following (abs), 395
Polonium, note of experimental use of, in human body (abs), 397
Polycythemia rubra, roentgen treatment of (abs), 591
Polyposis of stomach (abs), 581
Polyps, intestinal, diagnosis of (abs), 165
Porphyrin, sensitizing action of, to light and roentgen rays (abs), 197
Prostate gland, deep roentgen therapy in disease of (abs), 178
Hypertrophy of, diagnosis by cystography (abs), 479
Roentgen therapy of diseases of (abs), 596
Protection against radiation, international evaluation of (abs), 182
Against scattered radiation during roentgen diagnosis (abs), 295
Of roentgen-ray workers and some fundamental aspects of roentgen rays, 401
Protoplasm, effect of roentgen rays on (abs), 399
Of cell, effect of radium on (abs), 500
Psoas abscess, a roentgen sign of (abs), 80
Psoriasis, Brock's method in treatment of (abs), 285
Pathogenesis of, and results of irradiation of hypophysis (abs), 395
Pulmonary, and pleural diseases, value of roentgen ray in diagnosis of (abs), 575
Fibrosis (abs), 94
Pseudotuberculosis (abs), 271
Pyelography (abs), 275
For study of denervated kidney (abs), 397
Pyelonephritis, clinical data and prognosis in (abs), 482
Pyelo-ureterograms, bilateral (abs), 91

R-unit, significance of (abs), 183
Race question and roentgen rays (abs), 488
Radiation, scattered, protection against (abs), 295
Space, in treatment room devoted to deep therapy (abs), 294
Radioactive substances; their therapeutic use and applications (abs), 186
Radiology, natural and mental hazards of (abs), 495
Radium necrosis producing pneumopericardium (abs), 86
Tubes, apparatus for introducing into a filter (abs), 497
Use of, in internal medicine (abs), 191
Radius, congenital defect of (abs), 276
Longitudinal fracture of neck of (abs), 584
Rectifier, high tension, studies on output and electrical conditions of (abs), 495
Renal calculus and pyelography (abs), 475
Reproductive glands in humerus, studies of effects of minimal doses of roentgen rays upon (abs), 189
Retinal hemorrhages treated by roentgen ray (abs), 595
Rheumatic carditis, effects of irradiation upon, 103
Rickets occurring late in interstitial nephritis, 442
Roentgen projection and roentgen anatomic symbols (abs), 282
Roentgen rays, fundamental aspects of, 401
Hard, mechanism of action of (abs), 499
Relation of chemical, colloidal and biological effects to ionization, 426
Supersoft (2 A), 433
Roentgenograms, distinctness in (abs), 296
Roentgenography, automatic, during roentgenoscopic examination (abs), 291
With very soft rays (abs), 296
Roentgenoscopy, improvement of (abs), 283
To what extent is rod vision employed in (abs), 292
Röntgentherapie des Chirurgen, by Hans Rahm (B.R.), 160

Sand stone quarry workers, examination of (abs), 485
Sacroileitis (abs), 386
Sarcoma, bone, classification of (E), 255
Ewing's (E), 256
Mouse, experiments on radiation of (abs), 199
Of bone, periosteal and diffuse type and their diagnosis from benign lesions (abs), 81
Of skin, multiple, roentgen irradiation of (abs), 175
Of tonsils, radiological treatment of (abs), 592
Scars, irradiation of (abs), 176
Scattered radiation, quality of (abs), 494
Ray dose, measurement of (abs), 598
Scoliosis from Pott's disease, study of (abs), 381

Screen, fluorescent, a new type (abs), 197
Screens, intensifying, problem of definition on roentgenograms taken with (abs), 294
Sella turcica, stereoscopic roentgenography of (abs), 282
Semilunar bone, dislocation of (abs), 170
Kienboch's disease of (abs), 101
Malacia of (abs), 278
Sex committee of National Research Council, results of questionnaire sent out by, 458
Shadow intensity, its magnitude in roentgenology (abs), 294
Silica dust, effects of, upon lungs (abs), 97
Silicosis as an industrial hazard, 315
In sand stone workers (abs), 485
Sino-auricular node of dog, histological changes in, following radium emanation, 111
Sinus, nasal accessory, technique of roentgenography of (abs), 186
Paranasal, optic canals, pharynx and larynx, roentgen examination of (abs), 383
Sinuses, and mastoids, identification by comparison of roentgenograms of (abs), 495
Diseased, shape of fluid levels in (abs), 163
Nasal, shape of fluid levels in (abs), 577
Sinusitis, chronic maxillary, diagnosis of (abs), 276
Sirenomelia, development of (abs), 85
Situs inversus of viscera, partial (abs), 578
Skin cancers histolysis of, under action of radium (abs), 596
Carcinoma, question of wave length in roentgen therapy of (abs), 493
Epitheliomas, treatment of (abs), 592
Histological changes after roentgen irradiation (abs), 197
Measurements of transparency to light (abs), 199
Skull, changes in base of, in forms of osteitis (abs), 477
Roentgen examination for tumors of base of (abs), 583
Roentgen signs of extension of infection to, from deep sinuses (abs), 582
Snapshots, a distant control for (abs), 291
Spasm, symptomatic, in the digestive tract (abs), 576
Spinal cord and its membranes, surgery of (abs), 79
Spine, fracture of, in a tabetic (abs), 167
Roentgenography of, 124
Spondylitis deformans with myositis ossificans (abs), 87
Spondylolisthesis (abs), 481
Standardization of roentgen radiation in therapy (abs), 187
Stereoscopic roentgenography, a method of precision in, 370
Sterilization, permanent and temporary (abs), 173
Stomach, action of pilocarpin on motor function of (abs), 498
Benign tumors of (abs), 581
Cancer of, and metastatic of skeleton (abs), 283
Carcinoma of, 451; (abs), 483
Congenital abnormalities of (abs), 96
Effects of roentgenization on functions of (abs), 496
Gumma of (abs), 588
New method of roentgen therapy of (abs), 288
Operated, roentgen examination of (abs), 167
Polyposis of (abs), 581
Reverse waves in pars pylorica of (abs), 481
Roentgen and gastric juice examination of (abs), 580
Roentgen picture of mucosa of (abs), 590
Roentgen pictures of inner surface of (abs), 575
Special methods of roentgen examination of (abs), 387
Syphilis of (abs), 169
Subdiaphragmatic abscess, roentgen ray in diagnosis of (abs), 94
Sugar, injection of, in treatment of cancer, 365
Sycosis and roentgen epilation (abs), 492
Syphilis, congenital, bone changes in (abs), 90
Gastric and pulmonary, x-ray in diagnosis of (abs), 83
Syphilis of stomach (abs), 169
Syringomyelia, treatment of, by x-rays (abs), 487; (abs), 488; (abs), 594

Table with Bucky diaphragm (abs), 188
Tachycardias, effect of, on size of heart (abs), 295
Taft, Augustus Robert, obituary notice, 466
Tarsus, supernumerary bones of (abs), 480
Technic, roentgenographic (abs), 190
Temporal bone, technic of roentgenographic examination of (abs), 92
Tetraiodophenolphthalein, action of, on the heart (abs), 499
Therapy, radiation, plan and scope of, at Bellevue Hospital (abs), 293
Space radiation in rooms devoted to (abs), 294
Surface, and relation to internal organs (abs), 487
Surface, and relation to skin and blood pressure (abs), 487
Thymus gland (abs), 284
In children, clinical and pre-operative study (abs), 385
In children, roentgen diagnosis and therapy of, 119
In newborn and early infancy (abs), 94
Thyroid gland, treatment of malignant tumors of, 501
Tumors, bone metastasis in, 203
Tissue, effect of roentgen rays upon (abs), 185
Tissues, living, *in vitro*, effect of roentgen rays on (abs), 398
Tonsils, diseased, treatment by radium (abs), 289
Treatment of sarcoma of (abs), 592
Trichophytosis of scalp, new method of epilation in (abs), 486
Trifacial nerve, method of choice in treatment of neuralgia of (abs), 389
Tri-ped baby, report of case (abs), 170
Trochanter, lesser, avulsion of (abs), 97
Trochoscope, combined Potter-Bucky (abs), 399
Trypsin, inactivation of, by roentgen rays, 528
Tube, hot cathode (abs), 202
Tuberculosis, aspiration, in rabbits (abs), 295
Of genito-urinary tract, cystography as aid in diagnosis of (abs), 382
Of hilum in children, roentgen diagnosis of (abs), 579
Of one lung (abs), 481
Primary infection in (abs), 100
Pulmonary, errors and difficulties in diagnosis of (abs), 170
Pulmonary, physical tests of thyroid and suprarenals in relation to (abs), 398
Pulmonary, roentgen ray and physical signs in diagnosis of (abs), 84
Pulmonary, roentgenography in prognosis of, 453
Tracheobronchial, diagnosis of (abs), 91
Tuberculous lobar pneumonia, peculiar course of (abs), 271
Osteitis, anatomical cure of (abs), 383
Tubes, radiation output of gas and vacuum tubes (abs), 202
Tumor of bone, giant cell (abs), 292
Typhoid osteitis and periostitis (abs), 89

Ulcer, differential diagnosis between gastric and duodenal and gallstones (abs), 484
Duodenal, comparison of roentgenological and histological findings (abs), 284
Duodenal in a boy (abs), 279
Gastric, demonstrated by gas-filled stomach (abs), 90
Gastric, perforated, simulating diverticulum, 47
Jejunal, postoperative (abs), 473
Pyloric, diagnosis of, 130
Roentgen, a peculiar development of (abs), 189
Ulcers, late roentgen, 157
Ulna, fractures of coronoid process of (abs), 578

Ultraviolet rays, effect on growth (abs), 188
Ureter, giant calculus of (abs), 587
Stricture of, in males (abs), 584
Ureteral calculi (abs), 96
Calculus (abs), 578
Urinary obstructions in childhood (abs), 93
Urology, roentgen ray in (abs), 97
Uterine fibromyoma and hemorrhagic metropathies, roentgen therapy of (abs), 594
Uterus, and adnexa, cystography as aid in diagnosis of lesions of, 546
And adnexa, roentgen diagnosis of, 158
And adnexa, treatment of inoperable carcinomas of (abs), 489
And oviduct, lipiodol injection of (abs), 281
And tubes, study of anatomy of, by means of metrosalpingography (abs), 585; (abs), 588
Cancer of, device for roentgen irradiation of (abs), 192
Carcinoma of cervix of (abs), 285
Carcinoma of cervix of; a clinical and pathological study (abs), 286
Carcinoma of, roentgen treatment (abs), 198
Five-year end-results in treatment of cancer of cervix of (abs), 173
Operability of cancer of, after irradiation (abs), 174
Pathology of fibroid tumors of, in relation to treatment (abs), 288
Results of radium treatment of carcinoma of cervix of, 514
Uterus, roentgen report of gas cavity in (abs), 274

Vascular permeability, importance of, in therapeutic use of roentgen rays and radium, 337
Vegetation, effect of radium and chemical agents on (abs), 399
Ventilation of roentgen-ray rooms, 422
Ventriculographic apparatus, mobile, 70
Ventriculography, spontaneous, from ruptured brain abscess (abs), 485
Technique of, 264
Vertebral injuries, unusual (abs), 162
Vienna letter, 365
Vital staining in animals after roentgen irradiation (abs), 495
Vitamin needs of the organism and cancer, effect of roentgen rays on (abs), 193
Vitamines and the roentgen ray (abs), 181
Vomiting, "cyclic," in infants (abs), 89

Wave lengths, different, effect of upon energy and ionizing action of roentgen rays (abs), 185
Of roentgen rays, study of (abs), 297
Werlhof's disease, roentgen treatment of (abs), 177
Wrist bones, congenital malformation of (abs), 276
Wrists, traumatic lesion of both (abs), 479

X-Rays (see also roentgen rays)
And Electrons, by Arthur H. Compton (B.R.), 471
